

Jointly endorsed and approved by China Association for Science and Technology (CAST) and the People's Government of Zhejiang Province, The China Innovation and Entrepreneurship Competition for Overseas Talents will take place from January to May of 2018 with its finals to be held in Hangzhou between the 24th and 27th of the period. The Competition is aimed at assisting the best original overseas innovations and advanced high-techs and leading overseas talents and their teams find the Province of Zhejiang, China to be their best dream home for furthering their projects and starting up their business adventures. Zhejiang is a place where historically the most premium ecosystem of human resources is often found in China.

Overseas and international scientific and technological professional organizations, academic institutions and experts are welcomed to recommend projects to the Competition related to the following three specified fields of interests: Artificial Intelligence, Macro Health Industries, and Advanced System Engineering Machineries. Winning projects will receive support from both the local government and venture capitals in China. In addition, the First Prize winners will be recommended by the Organizing Committee of the Competition to the Overall China National Innovation and Entrepreneurship Week as its voluntary exhibiting projects.
